## 2014 Water Environment & Technology editorial calendar

he 2014 Water Environment & Technology editorial calendar includes a focus on the core topics of traditional wastewater management with exploration into such evolving areas as resource recovery,

smart meter technology, and stormwater management.

If you have an idea related to one of the topics below, please send an abstract, outline, or complete manuscript for review by the deadline listed. Submissions should be sent via e-mail to magazine@wef.org. All submissions must include the mailing address, phone number, and e-mail address of the corresponding author.

For more information, visit www.wef.org/submit.

Month	Topics	Deadlines
January	2014 State of the Industry • Water quality monitoring & instrumentation • Assessments and inspections • Pumps and pump stations Product focus: Flow monitoring & measurement	Sept. 30, 2013
February	Collection systems • Utility management • SCADA • Groundwater Product focus: Instrumentation	Oct. 15, 2013
March	Membranes • Disinfection • Maintenance • Algae Product focus: Tanks & storage	Oct. 30, 2013
April	CSOs/SSOs • Automatic meter reading • Preliminary treatment • Biosolids and residuals Product focus: Pumps & motors	Nov. 15, 2013
Мау	Water supply and management • Odor and corrosion control • Workforce planning Disinfection Product focus: Headworks & screening	Dec. 15, 2013
June	Smart meters and valves • Filtration • Infrastructure • Thickening and dewatering Product focus: Process control systems	Jan. 15, 2014
July	Green infrastructure • Pipe and tank installation and rehabilitation • Membranes Industrial wastewaters Product focus: Disinfection	Feb. 15, 2014
August	Decentralized systems • Energy and resource recovery • Activated sludge Asset management Product focus: Filtration	March 15, 2014
September	Disaster resiliency • Public outreach and communication • Watershed management Technical innovations Product focus: WEFTEC exhibitors	April 15, 2014
October	Automation and controls • Reuse • Nutrient removal • Disinfection Product focus: Piping installation & repair	May 15, 2014
November	Pumps and pump stations • Filtration • Stormwater • Clarification Product focus: Odor control	June 15, 2014
December	Operations Challenge • Biosolids and residuals • Aeration • Moving & fixed biofilm reactors Product focus: Flow control devices	July 15, 2014
