

SEPT. 30–OCT. 4, 2023
Chicago, IL

as essential

as clean water

This **must-attend** annual gathering brings together water quality professionals to discuss how we can **ensure access to clean water** for all and create a **more equitable, sustainable future**.

Discuss current and emerging trends, **collaborate** with leaders in water management, and **explore** the latest in technology on the exhibit floor to solve the most pressing water issues.
