Session proposals can be presented in different formats from the traditional podium presentation, such as a panel discussion, mini-workshop, and interactive discussion. We are open to whatever format you can come up with and encourage creativity.

With an abstract proposal, the committee places selected abstracts together to form a session. However, with a session proposal, the session coordinator is responsible for finding all the speakers to fill between 1-2.5 hours and developing the timing and format of the session as a whole. Session coordinators will arrange the program and work with WEF staff to curate the session. Session proposals should be more interactive than the traditional podium presentations created through abstracts.

As a session coordinator, WEF asks that a proposal be completed and submitted for review through the online submittal site, Attendee Interactive (AI). The Specialty Conference Committee will review all submittals and announce accepted sessions at the same time as the final technical program in February.

For complete proposals, WEF requires information on the following items:

- ❖ **Session Title**
- ❖ **Selection of Full or Half Session**
 - Full Session: 2.5 hours total; 1.5 hours content, 45 min break, 1 hour content
 - Half Session: either 1.5 hours or 1 hour long (please indicate the length in the description)
- ❖ **Contact Information for Session Coordinator**
 - This person will be WEF's main contact throughout the process and is expected to work with the speakers throughout the development of the content for the program.

- ❖ **Three Learning Objectives**
- ❖ **Session Agenda**

Pre-conference workshops are additional add-on programs available for conference registrants. A workshop is a highly interactive, hands-on, immersive learning experience. We offer both full day and half-day workshop experiences. Interaction is what makes a workshop a workshop. It needs to be well-integrated throughout the day. Do not hold the interaction until the end of the day.

Speakers and facilitators are encouraged to brainstorm and incorporate interactive activities to deliver their subject matter expertise and content in a meaningful way to the participants. As speakers also help facilitate and support the interactive components, plenty of face time, one-on-one, and small group knowledge is exchanged. **Workshops with interactive components interspersed throughout the session will be prioritized for selection.**

These programs follow strict guidelines so that the highest level of education credits (CEUs) can be awarded for all WEF workshops. In order to be approved for CEUs, workshop agendas and descriptions must be finalized at least 90 days before the event.

As a workshop coordinator, WEF asks that a proposal be completed and submitted for review through the online submittal site, Attendee Interactive (AI). The Specialty Conference Committee will review all submittals and announce accepted workshops in January.
