Friday, September 14, 2018

Dear Sigmund Skinner,

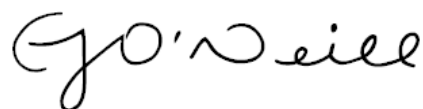

The Water Environment Federation (WEF) is pleased to have you participate in our new student outreach program known as WEF InFLOW (**I**ntroducing **F**uture **L**eaders to **O**pportunities in **W**ater).

WEF InFLOW is a scholarship program that invites promising students from underrepresented minority groups to attend WEFTEC, the largest annual water quality event in the world. As a participating student, you will have the opportunity to learn about working in water, and network within WEF and those in the water sector to increase probabilities for employment and long-term success in this industry. The program will take place at WEFTEC 2018 in New Orleans, LA, from Friday, September 28th, to Tuesday, October 2nd.

Thanks to our sponsors at Arcadis, GlobalWET, Centrysis, and the Milwaukee Water Council, WEF InFLOW will be providing travel assistance, hotel accommodations, conference registration, and additional networking opportunities for participating students.

We look forward to having you attend WEFTEC 2018, and hope that you enjoy your time learning about the opportunities that await you in the water industry.

Sincerely,

Eileen O'Neill, Ph.D., BCES  
WEF Executive Director
