Membership with the BCWWA

About the BCWWA

The BC Water & Waste Association (BCWWA) is a not-for-profit organization that represents over 4,600 water professionals who are responsible for ensuring safe, sustainable and secure, water, sewer and stormwater systems. Our members work everyday to keep our water systems clean and safe - from source to tap to drain and back.

The BCWWA provides professional development and networking, operator education, certification, and advocacy on behalf of its members, to ensure our water systems continue to protect public health and the environment.

We are affiliated with the American Water Works Association (AWWA) and the Water Environment Federation (WEF).

Why we exist

The BCWWA is dedicated to ensuring that:

1. Water users, regulators and elected officials make informed decisions about water services.
2. The BC & Yukon region has a competent and sustainable water sector workforce.
3. The BC & Yukon region has an influential and cohesive network of water practitioners.
4. Leadership and innovation is fostered within the water community.
