Bill Stuffer
Order No: HS1806

Help your customers learn how polluted stormwater runoff impacts the environment and what they can do to prevent it. This timely bill stuffer helps utilities meet permit compliance requirements for public education by highlighting simple pollution prevention tips like keeping

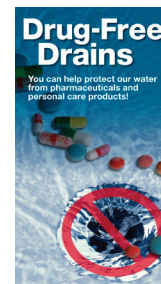

trash out of storm drains, recycling household wastes, and picking up after pets.

Bill Stuffer Order No: HS1809

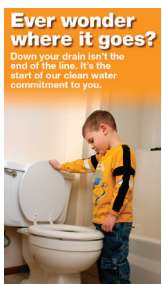

Describe the importance of reducing, reclaiming, and recycling water to maintain a safe and sustainable water supply with this six-panel bill stuffer. The WaterRecycle: Three Magic Rs focuses on safety, practicality, and benefits for environmentally-conscious communities and includes a QR code for more information on water quality protection.

Bill Stuffer Order No: HS1811

Controlling what goes down the drain is the best way to protect the environment, and that's everyone's responsibility! This brochure and bill stuffer educate customers about how drugs and traces of personal care products can enter the water environment and what they can do to prevent or limit this.

Brochure Order No: HP1904
Bill Stuffer Order No: HS1802

Down the drain isn't the end of the line thanks to a clean water commitment from the nation's wastewater treatment plants. Help customers understand just how wastewater treatment plants work and why they are so important to a clean environment. The brochure and bill stuffer include a

chart that shows how wastewater is treated, step-by-step.

Brochure Order No: HP1907
Bill Stuffer Order No: HS1805

This exciting revamp of WEF's best seller on household wastes describes how common pollutants can enter the environment and how consumers can dispose of them properly for a more sustainable environment. Featuring an easy-to-understand chart that illustrates disposal

methods for common household wastes from areas such as the kitchen, bathroom, garage, workshop, and garden.

Brochure Order No: HP1906
Bill Stuffer Order No: HS1804

Now there's a way to educate the many pet owners who don't realize that even daily waste contributions from small pets can damage water quality. This bill stuffer describes the problem and the solution to educate people about the importance of picking up after their pets.
