

PUBLISH A BOOK WITH WEF

Become an author for the Water Environment Federation (WEF) – a leading publisher on topics such as wastewater, stormwater, water reuse, energy, utility management, and many other water quality topics.

WEF is currently seeking authors to assist in the development of new publications, including titles on new research and titles suitable for supplemental course use. The following topics are of particular interest:

- Fundamentals of Wastewater Microbiology
- Fundamentals of Activated Sludge Processes
- Sustainability
- Microconstituents
- Water-Energy-Nutrient Nexus

Ready to Share Your Expertise?
