

PUBLISH A BOOK WITH WEF

Become an author for the Water Environment Federation (WEF) – a leading publisher on topics such as wastewater, stormwater, water reuse, energy, utility management, and many other water quality topics.

WEF is currently seeking authors to assist in the development of new publications in a variety of areas, with a particular focus on the following topics:

- Sustainability
- Microconstituents
- Data Analytics and Smart Systems
- Water-Energy-Nutrient Nexus
- Resilience
- Resource Recovery

Why publish with WEF?

Expertise

WEF is a leading publisher of water quality titles. As a WEF author you will align yourself with a water authority and be viewed among your peers as a trusted resource within the water sector.

Teamwork

From proposal and manuscript to marketing and distribution, WEF's experienced team of professionals will be there to help you and your book navigate the intricacies of the publishing process.

Reach

Receive unparalleled exposure to a global audience of water quality professionals. WEF hosts several water quality conferences annually, including WEFTEC, the largest annual water quality exhibition in the world.

Network

As a WEF author you will join a global network of 35,000 individual members and 75 affiliated Member Associations representing water quality professionals around the world.

Ready to Share Your Expertise?
