

# PUBLISH A BOOK WITH WEF

Become an author for the Water Environment Federation (WEF) – a leading publisher on topics such as wastewater, stormwater, water reuse, energy, utility management, and many other water quality topics.

WEF is currently seeking authors to assist in the development of fundamental publications in a variety of areas that can be used as supplemental course texts, with a particular focus on the following topics:

- Fundamentals of Wastewater Clarification
- Fundamentals of Wastewater Microbiology
- Fundamentals of Activated Sludge Processes
- Fundamentals of Nitrification and Denitrification
- Fundamentals of Enhanced Biological Phosphorus Removal

**Ready to Share Your Expertise?** To learn how WEF can help you become an author and share your expertise, visit [accesswater.org/authors](https://www.accesswater.org/authors).
