Sustainability at WEFTEC

[Dashboard](#)

WEF is aware that large live events have significant environmental impacts and is committed to minimizing WEFTEC's impacts both globally and locally. We are taking steps to better measure our climate footprint; taking actions to reduce greenhouse gas emissions as much as possible; and compensating for emissions that are unavoidable.

You can join WEF's conservation effort by offsetting the greenhouse gas emissions generated by your travel to and from Chicago. Your contributions will be applied to purchasing Certified Emissions Reductions (CERs) from the United Nations' (UN's) carbon offset platform. The CERs are generated from Clean Development Mechanism (CDM) projects, which are in developing countries to offset unavoidable emissions or as a contribution to the global climate action. Carbon offset icons on conference badges will acknowledge contributors.

* indicates required fields.

* Yes, I would like to make this contribution as part of my registration payment.
