

## Shared Island Booth List – Updated 4/14/20

Listed companies are defined as Shared Island booths, which have the following design regulations.

- Shared Islands will be set with 8' of drape between the two shared spaces
- The maximum height of 18' may be used through the entire booth space
- The maximum height of 18' includes both freestanding display items and hanging signs at the top of the sign
- Electrical/lighting truss or other support truss may be higher than the 18' maximum height, but may not exceed the booth's floor dimensions, and may not display logos or other design elements
- Graphics within a Shared Island booth must be set 5' away from the drape between the two shared spaces
- **Any signage or graphics facing the drape and closer than 5', including hanging signs will be moved or removed at the Exhibitor's expense.**
  - [Contact show management](#) to confirm your booth and graphic/hanging sign layout if you are in a Shared Island.

Visit <http://www.weftec.org/exhibitor-service-manual> for complete booth guidelines.

Company Name	Booth Number	Booth Size	Notes
Aqualitec – EMO	4145	20' x 20'
